

APFNet & Carbon

Past, Present and Future

Anna Finke, Division Director, Project Management Division, 12/08/2021

“Economic growth, energy security and climate change are fundamental and interlinked challenges for the APEC region.”

APFNet Key Pillars

- **Policy Dialogues**
- **Capacity Building**
- **Information Sharing**
- **Demonstration Projects**

Climate Goals

Thailand reduce GHG emissions by 30% by 2030

Indonesia reduce GHG emissions by 29% by 2030

China Carbon Emission Peak by 2030, **Carbon Neutrality** by 2060

—> from carbon emissions to carbon neutrality

APFNet & Carbon

- **Forest-based emissions**
 - **Forest Carbon Storage Potential**
 - **On-the-ground Carbon Stock Measurements**
 - **GIS-based Carbon Mapping**
 - **Data for local/regional/national use and reporting**

APFNet's Vision for Carbon

- **Improved Carbon Measure Methodology**
- **Improved Reporting & Planning**
 - **Carbon as a key component in multifunctional forestry and restoration**
 - **Increased role of forest carbon capture in carbon neutrality**

APFNet & Carbon

Thank you!
